OUR CULTURE

**Safety**
Our Team is provided with innovative tools required to be an effective and safe leader in planning and execution methods making a safe work environment.

**Values**
*People* – Our One and Only Most Valued Asset  
*Integrity* – Doing Right the First Time  
*Success* – Achieve Goals and Exceed Expectations  
*Excellent* – Lead By Example

**Vision**
To be a Leader in the Industry Sectors, a Client’s FIRST choice, and to provide exceptional career opportunities.
ABOUT OUR COMPANY

Established in 2012

• Over 80 years of proven industry experience
• Over 250,000 safe working hours with zero accidents, zero incidents, & zero recordables
• Acquired TR Electrical June 2018 with 12 years of 1,000,000+ safe working hours with zero accidents, zero incidents, & zero recordables
• Offices in California, Louisiana, Tennessee, & Texas
• Partnerships include Certified California DBE and SBE Businesses
• NCCER & Operator Qualifications Compliant
• ISO 9001:2015 Quality Management Compliant
• Member of: ISNetWorld, Veriforce, and DISA Programs
• Company-Owned Equipment
INDUSTRY SECTORS WE SERVE

- Drilling
- Oil & Gas Production
- Pipeline
- Refining
- Power Generation
- Utilities – Power, Gas, Water
- Solar
- Wind
- Pulp & Paper
EI&C SOLUTIONS WE PROVIDE

- Estimating
- Budgeting
- Planning
- Scheduling
- Design Reviews for Best Application
- Procurement
- Material Management
- Assessments
- Constructability Reviews
- Preventive & Routine Maintenance

- Inspections
- New Construction
- Upgrades & Modifications
- Installation Management
- Commissioning & Start-Up
- Operator Training
- Operations Support & Optimization
- De-Commissioning & Abandonment
- Technical Staffing
- Platform Conversions
CONSTRUCTION SOLUTIONS

• Turnkey Construction Solutions
• Equipment Procurement and Management
• Storage and Preservation
• Equipment Installation
• On-site Device Calibration
• Process Control Network Systems
• HMI, PLC, DCS Automation Solutions
• Fiber Optics
• Industrial Lighting Solutions
• Motor Controls
• Power Distribution
• Equipment Tracking, Storage, & Preservation
• Leak Detection Planning & Execution
• Operating Procedure Development
• Redlines, Loop Folders, Turnover Package Development & Management
• Operator Training
• Compliance Auditing
• Controls Performance Tuning & Optimization
• On-Site Device Calibration
• Loop Checks
• Completions Database
CAPITAL UPGRADE SOLUTIONS

- Expedited Project Expertise
- Project Assessment & Scope
- Turnkey EI&C Installation Services
- QA/QC Implementation & Management
- UPS Systems
- High, Med & Low Voltage Installs & Testing
- Power Distribution, Switchgear
- Industrial Lighting
- Information Transport
- Instrumentation, Installation, Loop Checks
- Startup & Commissioning
TURNAROUND SOLUTIONS

- Immediate Mobilization
- Schedule & Budget-Driven
- Turnkey EI&C Installation Services
- Construction Management
- Technical Staffing Provider
- DCS Migration, System Integration, Programming
- Instrumentation Upgrades/Equipment Relocations
- Hot & Cold Cut Overs
- High, Medium & Low Voltage Installs & Testing
- Startup & Commissioning
Heat Tracing
A vital element in the reliable operation of pipelines, storage and process vessels throughout the process industry.

Steam Tracing
For extensive pipe runs as found in most of the industrial process field, has long been accepted as the preferred method for maintaining appropriate pipeline or product temperatures.

Benefits of Heat & Steam Tracing
- Anti-Frost Protection
- Explosion Proof
- Intrinsically Safe
- Requires No External Power Source
- Temperature Control
EXTENDED ASSET SOLUTIONS

Managing, Planning, and Execution Methods

• Mechanical Integrity Programs
• Factory Acceptance Testing
• Site Acceptance Testing
• Integrity Testing (pneumatic or hydrostatic)
• Flushing and Chemical Cleaning
• Flange Management
• Nitrogen / Inerting

• Pipeline: pigging, cleaning, testing, drying, inerting
• Equipment Sourcing and Rentals
• Technical Staffing Provider
• De-Commissioning and Abandonment
• Unmanned Aerial Vehicle (UAV) / Drone
• Underwater Drone / Remotely Operated Vehicle (ROV)
